

Chen GONG

POSTDOC, INSTITUTE FOR THEORETICAL SCIENCES, WESTLAKE UNIVERSITY

EDUCATION	Ecole Polytechnique , Palaiseau, France	
	<i>Phd student, under the supervision of Charles Favre</i>	<i>September 2021 - September 2025</i>
	Université de Paris-Saclay , Orsay, France	
	<i>Master 2 in Mathematics</i>	<i>September 2020 - August 2021</i>
	Universté de Franche-Comté , Besançon, France	
	<i>Master 1 in Mathematics</i>	<i>September 2019 - June 2020</i>
	Wuhan University , Wuhan, China	
	<i>B.S in Mathematics</i>	<i>September 2016 - June 2020</i>
EMPLOYMENT	Westlake University , Hangzhou, China	
	<i>Postdoc</i>	<i>November 2025 - present</i>
	Ecole Polytechnique , Palaiseau, France	
	<i>Postdoc</i>	<i>September 2025</i>
RESEARCH PAPERS	<i>Non-Archimedean rigidity and uniformity for common preperiodic points, with Jit Wu Yap, submitted, arXiv:2607.19252</i>	
	<i>Generalized rescaling limits of a sequence of rational maps, with Charles Favre, submitted, arXiv:2605.10131</i>	
	<i>Multiplier scales of a sequence of rational maps, arXiv:2510.25029</i>	
	<i>Non-Archimedean techniques and dynamical degenerations, with Charles Favre, Peking Mathematical Journal, 1–63 (2025), DOI:10.1007/s42543-025-00100-7</i>	
TEACHING	Teaching assistant of Complex analysis at Westlake University.	<i>2025</i>
	Teaching assistant of Introduction to analysis at École Polytechnique.	<i>2020 - 2024</i>
TALKS	<i>Degeneration and uniform boundedness of common preperiodic points, Hunan Agricultural University, Changsha, China</i>	
	<i>April 2026</i>	
	<i>Non-Archimedean techniques and dynamical degenerations, Shenzhen University, Shenzhen, China</i>	
	<i>January 2026</i>	
	<i>Non-Archimedean techniques and dynamical degenerations, Institute for Advanced Study, Harbin, China</i>	
	<i>January 2026</i>	
	<i>Multipliers of a Sequence of Rational Maps, RIMS, Kyoto, Japan</i>	
	<i>December 2025</i>	
	<i>Multiplicateurs d'une suite de fractions rationnelles, IMT, Toulouse, France</i>	
	<i>Septembre 2025</i>	
	<i>Non Archimedean techniques in the study of degenerating sequences, Cirm, Marseille, France</i>	
	<i>January 2025</i>	
	<i>Dégénérescences d'une suit de fractions rationnelles, Laboratoire Paul Painlevé, Lille, France</i>	
	<i>November 2024</i>	
	<i>Multiplicateurs et rescaling limites, IMJ, Paris, France,</i>	
	<i>December 2024</i>	
	<i>Convergence of metrics of constant curvature in the hybrid space, Institut Henri Poincaré, Paris, France</i>	
	<i>September 2024</i>	
	<i>Non-Archimedean techniques and dynamical degenerations , Westlake University, Hangzhou, China</i>	
	<i>August 2024</i>	
	<i>Non-Archimedean techniques and dynamical degenerations, Institute for Advanced Study in Mathematics of HIT, Harbin, China</i>	
	<i>August 2024</i>	

CONFERENCES
AND
WORKSHOPS

New Trends in Holomorphic Dynamics in Dimension One and Higher, Université d'Orléans, Orléans, France *June 2026*

Changsha 2026 Workshop on Complex Dynamics and Complex Equations, Hunan Agricultural University, Changsha, China *April 2026*

Shenzhen 2026 Workshop on Complex Dynamics, Shenzhen University, Shenzhen, China *January 2026*

Harbin 2026 Conference on Complex Dynamics and Arithmetic Dynamics, Harbin Institute of Technology, Harbin, China *January 2026*

RIMS Symposium: Complex Dynamics and Related Topics, Kyoto University, Kyoto, Japan *December 2025*

Conference of Complex Analysis in China 2025, Huzhou University, Huzhou, China *October 2025*

Degeneration of flat surfaces and rational maps, Institut de Mathématiques de Toulouse, Toulouse, France *June 2025*

Arithmetic Geometry in Cabourg, Cabourg, Normandy, France *May 2025*

Tangent to the Identity Germs and Affine Surfaces, Institut de Mathématiques de Toulouse, Toulouse, France *January 2025*

Etats de la recherche: Dynamique arithmétique, algébrique, et analytique, CIRM, Marseille, France *January 2025*

Seminar in Arithmetic and Algebraic Dynamics, IMJ, Paris, France *2023–2024*

Complex Dynamics and Complex Geometry, Laboratoire Amiénois de Mathématique Fondamentale et Appliquée, Amiens, France *June 2024*

Centro di Ricerca Matematica Ennio De Giorgi, Pisa, Italy *May 2024*

Workshop SINTROP, CMLS, Palaiseau, France *March 2024*

ERC GOAT Dynamique, IRMAR, Rennes, France *November 2023*

Facets of Complex Dynamics, Institut de Mathématiques de Toulouse, Toulouse, France *June 2023*

Topics in Complex Dynamics 2023, Universitat de Barcelona, Barcelona, Spain *June 2023*

Groupe de travail Dynamique Arithmétique, IMJ, Paris, France *January–April 2023*

ANR Padawan Project first meeting, Institut Denis Poisson, Orléans, France *January 2023*

Conference on Complex Analysis, Complex Geometry and Dynamics, in memory of Sibony, IMO, Orsay, France *November 2022*

Complex Geometry, Dynamical Systems and Foliation Theory

Géométrie complexe, systèmes dynamiques et théorie de feuilletages, CIRM, Marseille, France *October 2022*

Journées ANR Fatou, Institut Denis Poisson, Orléans, France *June 2022*

Complex Dynamics: from special families to natural generalizations in one and several variables, MSRI, USA *May 2022*

Quantitative aspects in complex analysis, geometry and dynamics, Laboratoire Paul Painlevé, Lille, France *October 2021*
